March 2015

Texas Administrative Code

Title 34: Public Finance
Part 1: Comptroller of Public Accounts
Chapter 9: Property Tax Administration
Subchapter H: Tax Record Requirements
Rule §9.3059: Certification of Appraisal Roll

- (a) The chief appraiser shall certify a copy of the annual appraisal roll for the appraisal district to the Comptroller of Public Accounts. The appraisal roll shall be submitted to the comptroller by the deadlines and in the form and manner provided in the Electronic Appraisal Roll Submission Record Layout and Instructions Manual published by the comptroller.
- (b) If requested in writing to the director of the comptroller's property tax assistance division by the chief appraiser at least 30 days before the applicable deadline for submission of an appraisal roll, the deadlines may be waived, but only if the appraisal district can show good cause for late submission.
- (c) The director of the comptroller's property tax assistance division shall deliver a written determination of the request for waiver provided in subsection (b) of this section, by e-mail, facsimile transmission or regular first-class mail. An appraisal district may appeal the denial of a waiver to the comptroller. The comptroller shall decide each appeal by written order and shall deliver a copy of the order to the chief appraiser by e-mail, facsimile transmission or regular first class mail.
- (d) The Comptroller of Public Accounts will periodically revise the Electronic Appraisal Roll Submission Record Layout and Instructions Manual. Copies of this publication can be obtained from the Comptroller of Public Accounts, Property Tax Assistance Division, P.O. Box 13528, Austin, Texas 78711-3528. Copies may also be requested by calling the toll-free number 1-800-252-9121. In Austin, call 1-512-305-9999. Email requests may be directed to ptad.ears@cpa.texas.gov.

Overview of the 2015 Electronic Appraisal Roll Submission Process

Introduction

Since 1991, the Texas Comptroller of Public Accounts' Property Tax Assistance Division (PTAD) has worked to improve its Property Value Study (PVS) through the electronic transfer of information. In a forward-looking move, the Comptroller's office in 1991 proposed a joint project with appraisal districts aimed at obtaining appraisal roll data to improve the PVS, while simplifying the system for reporting local value to the division. Several pioneering appraisal districts joined the project in its first year. Currently, all 253 appraisal districts participate in the electronic submission process.

Simplified Reporting

The Electronic Appraisal Roll Submission (EARS) requires appraisal districts to provide appraisal roll information in a standard electronic format. The Comptroller's office continues to work with appraisal districts to successfully submit electronic appraisal roll information.

Before EARS, appraisal districts and school districts went through a yearly process of creating self-reports of their property value on hard-copy forms. Now, appraisal districts submit the required data to PTAD in the standard electronic format. The Data Security and Analysis Team verifies the self-report generated by EARS against the certified recap provided by the appraisal district. If there are material discrepancies, the EARS file will be rejected, and the appraisal district is required to correct discrepancies and resubmit the EARS file and corrected re-caps. To get a copy of the self-report generated from EARS, contact the Data Security and Analysis Team at 1-800-252-9121 or 512-305-9999 (press 2 to access the menu and then press 2 again).

Improved Property Value Study

Electronically generated reports of local value can be more accurate than hard-copy reports. In addition, PTAD uses electronic data to generate stratification reports, to randomly select properties for appraisal in the PVS and for review during the Methods and Assistance Program.

Improved Statewide Information

PTAD regularly responds to information requests from taxing units, appraisal districts, state and local elected officials and the public. Improving the database by adding appraisal record information greatly expands the information available.

Who Benefits?

Appraisal districts benefit from participating in the EARS process because they do not have to complete several required reports. School districts and other taxing units benefit when their appraisal districts participate because they do not have to complete hard-copy reports each year.

With an electronic appraisal roll, PTAD generates the following reports:

- School District Report of Property Value;
- County Report of Property Value; and
- City Report of Property Value.

Important Changes for 2015

Fields have been added to indicate that properties qualify for a tax limitation due to the owner being 65 or over or disabled. A field has also been added to indicate that the property is located within a tax increment reinvestment zone.

PTAD is now requesting that all fields in all record types be completed as part of the submission. Some appraisal districts did not complete the account category detail (ACD), account owner name and address (AND) or account parcel address and legal description (APL). PTAD now has a new appraisal system and those fields will be used by that system. This will improve the accuracy of appraisals used in the PTS. See **Exhibit 4** for a complete list and description of all fields.

PTAD Staff Assistance

PTAD staff is available to answer questions about the submission process and the detail of data elements. You can contact the Data Security and Analysis Team by email at ptad.ears@cpa.texas.gov or by phone at 1-800-252-9121 or 512-305-9999 (press 2 to access the menu and then press 2 again).

How PTAD Receives Submission

PTAD maintains a secure FTP site for EARS submissions at privateftp.cpa.texas.gov/incoming/ptad_ears. This FTP site requires software other than the normal Internet browsers for access. The software must support the SFTP protocol for file transfers. You must also be a registered user. If you have questions or problems using this site, please contact Les Adam at 512-305-9920 or by e-mail at leslie.adam@cpa.texas.gov.

When you place a file on our FTP site, please notify us by e-mail at ptad.ears@cpa.texas.gov.

As part of our continuing effort to improve this process, PTAD is examining other possible methods of file submission. If a different method of submission is authorized, PTAD will notify the appraisal districts by e-mail.

Please name the file in the following format: XXX-EARSMMDDYY.txt ('XXX' = appraisal district number and MMDDYY is the date the file is submitted). Each submission must be accompanied by a Media Information Form (MIF) and a computer-generated recap for each taxing unit that includes category values, exemption totals and the agriculture valuation breakdown including the prior land-use classes for wildlife and timber in transition.

The MIF, EARS data file and certified recaps should be compressed into one file using WinZip or a similar program that uses a WinZip compatible compression format. Please name the zip file in the same format as the data file.

The MIF requires the signature of the chief appraiser to certify that the submission is a true and correct certified appraisal roll. The form provides important information about the number of records for each type and contact information.

NOTE: Any submission that does not have a data file, an MIF and a complete set of recaps will not be accepted. All files should be included in one zip file placed on the FTP site.

Appraisal Roll Submission

Submission Deadlines

Pursuant to Comptroller Rule 9.3059 electronic appraisal roll submission by the deadlines shown below is mandatory for all appraisal districts. Deadline extensions may be requested as discussed below.

June 1: Deadline for filing a preliminary test submission. This is not required. However, it may identify issues and result in a smoother submission process. Appraisal districts that have new computer systems or software vendors are encouraged to submit test files.

Aug. 1: Deadline for filing a final submission with certified values for any appraisal district with fewer than 200,000 taxable parcels but more than 10,000 parcels, excluding Category G parcels. In determining the number of parcels, be sure to use Category D parcels, not acres.

Sept. 1: Deadline for filing a final submission with certified values for any appraisal district with fewer than 10,000 or more than 200,000 taxable parcels, excluding Category G parcels. In determining the number of parcels, be sure to use Category D parcels, not acres.

Extensions

Comptroller Rule 9.3059 requires that requests for deadline extensions **be filed by the chief appraiser with the PTAD director at least 30 days** in advance of the applicable deadline. The PTAD director may waive the deadline if the appraisal district can show good cause for a late submission. Good cause is an event outside the appraisal district's control causing an inability to comply with the deadline and may include serious computer problems. The extension request must be in writing, state the reasons for the extension request and state the amount of time needed to comply. Every effort will be made to grant extensions; however, PTAD staff must have adequate time to properly review and process the data for use in the PVS.

Media Information Form (MIF)

The MIF must be completed and enclosed each time you provide an electronic submission. Submissions will

not be processed without the completed form. If you use an in-house form, make sure it has the name and phone number of the individual to contact in case of errors or problems with the submission. A PDF version of the MIF is available on the Comptroller's website at comptroller.texas.gov/taxinfo/taxforms/50-792.pdf.

Electronic Submission of Appraisal Roll Data

The appraisal roll submission includes information on each parcel of property, regardless of whether the appraisal review board has approved the property record.

All of the record types described below must be placed into one file for submission to PTAD. *Please do not submit additional files with the record types separated.*

Information to be Submitted after Acceptance of EARS Files

The EARS record layout does not include all of the information required to determine taxable value. Once the EARS file is accepted, the following forms must also be submitted for each school district, county or city:

- *County Report of Property Value - 2015 Short Form* including effective and rollback tax rates, adopted tax rates, actual tax levy and information on deferred taxes;
- *City Report of Property Value - 2015 Short Form* including effective and rollback tax rates, adopted tax rates, actual tax levy and information on deferred taxes;
- *School District Report of Property Value - 2015 Short Form* including effective and rollback tax rates, adopted tax rates, actual tax levy and information on deferred taxes;
- *Appraisal District Report of Property Value - 2015 Short Form*;
- *Report on Value Lost Because of the School Tax Limitation on Homesteads of the Elderly and Disabled*;

- *Report on Value Lost Because of School District Participation in Tax Increment Financing*, if applicable; and
- *Report on Value Lost Because of Value Limitations under Tax Code Chapter 313*, if applicable.

Templates for these forms can be found on the Comptroller's website at comptroller.texas.gov/taxinfo/taxforms/02-form13.html.

NOTE: Copies of these forms and their supporting documentation in Adobe PDF format should be placed on our FTP site in one zipped file. DO NOT FAX FORMS TO PTAD.

Description of Record Layouts

The following records contain information on a single account. Each of these records must be reported for each account you appraise.

- **Account Parcel Address & Legal Description (APL):** This record contains the legal description of a property.
- **Account Owner Name & Address (AND):** This record contains the percentage ownership for each owner of a property and a unique owner identification (ID) code number if your appraisal district uses owner ID numbers.
- **Account Jurisdiction (AJR):** This record contains the exemption amounts granted by each taxing unit for the account, property category code, market value and taxable value for the account. If an account has multiple property classifications, a separate AJR record **MUST** be created for each category of property.

If an account is related to another account and they are used and appraised as one property, the records must indicate this by the use of a parent account number. You may choose to report the related properties as either one account with one record or as separate accounts with parent account indicators. Please refer to the *Texas Property Tax Assistance Property Classification Guide* (comptroller.texas.gov/taxinfo/proptax/pdf/96-313.pdf) for more information on the use of the parent account number field.

Example:

There is a house on a lot with a vacant lot next to it, both owned by the same person and used for his

daily residential activities. This may be reported as one Category A account or as one Category A account and one Category C with the same parent account number for both records.

- **Account Category Detail (ACD):** This record contains appraisal information for the property specific to each category of property. The record should have a description of the primary structure on the property if there is more than one structure per category. Create one record for each category of property on an account.
- **Ag Use Account Detail (AUD):** This record details information on agricultural land use. If the property is receiving productivity value, an AUD record **MUST** be created for each type of agricultural use. This requires one or more records for each taxing unit for each account.
- **Top 10 Taxpayers (TU2):** These records contain information on the top 10 taxpayers in the taxing unit. Each record contains information on one taxpayer and that taxpayer's ranking (10 records per taxing unit). These records are only submitted for school districts and cities, but they must be submitted for each school district and city in the appraisal district.
- **Required Recaps:** Summing the AJR or AUD records creates each taxing unit's report of property value. Each of the totals must balance to the chief appraiser's certified recap. This comparison of values is one way PTAD verifies the EARS submission is accurate for each appraisal district. This is also why your submission will not be accepted unless a copy of the recap is submitted with your certified EARS files. The certified recap must correspond to the values reported on the submission. Recaps must include the breakdown of category values, exemptions and losses and land classes that are receiving agricultural value. Include previous land classes for wildlife management and transition to timber and forest and soil types for timberland at productivity and restricted use.

Field Formats

All fields are entered as alphabetic, alphanumeric or numeric. All fields are zone format.

- Alphabetic fields contain only alphabetic letters.

- Alphanumeric fields may contain any character – spaces, letters, numbers or special characters.
- Numeric fields only contain numbers. NO decimal points, commas, dollar signs or other characters may be entered into numeric fields. Numeric fields have an implied decimal point. All numeric fields are defined with a total length and the number of decimal places (to the right of the implied decimal point). The difference between the total length and number of decimal places is the number of digits to the left of the implied decimal point. There may be NO packed decimal numeric formats.

Examples:

- ✓ A format of 12/3 is entered into the field as “9999999999999999” and implies a format of 999,999,999.999 or nine digits to the left of the decimal point and three digits to the right of the decimal point.
- ✓ A format of 7/6 is often used to describe percentages. 100 percent is represented as 1.000000 and entered into the field as “1000000”.

How to Sort Records

The following record types are used to define the information for each of the properties. All of these record types are required in defining each property, except the AUD record that is only needed when defining agricultural property types.

AND, AJR and ACD records must have at least one occurrence and can have multiple occurrences depending on the nature of the property. AUD records are not required for each property, but can have multiple occurrences when needed. Record type TU2 can have a maximum of 10 occurrences per taxing unit. **Exhibit 1** indicates each record type, description and the number of allowed occurrences.

Exhibit 1: Record Types and Description

Record Type	Description	Number of Occurrences
APL	Account Parcel Address Record	1 only
AND	Account Owner & Address Record	1 to many
AJR	Account Jurisdiction Record	1 to many
ACD	Account Category Detail Record	1 to many
AUD	Ag Use Account Detail Record	0 to many
TU2	Top 10 Taxpayers Record	1 to 10

In order for PTAD to accurately process the properties submitted, we ask that you sequence the records in the order described above. Each property would then be comprised of a grouping of record types. These groupings are delimited by the APL record, which indicates the beginning of a new property and an ACD or AUD record, which indicates the end of that property’s information. **Exhibit 2** offers an example of the requested sequencing of record groupings.

Exhibit 2: Example of Record Groupings

Property #1	Property #2	Property #3
APL	APL	APL
AND	AND	AND
AJR	AJR	AJR
AJR	AJR	ACD
AJR	ACD	AUD
ACD	ACD	
ACD	AUD	
	AUD	
	AUD	

IMPORTANT:

- The sequencing of each group of records that define a property is critical for record processing by PTAD.
- Any group of records found to be out of sequence will be rejected at a group level by the EARS edits and must be revised and resubmitted as a group for reprocessing.
- If any of the required data elements in any of the record types are rejected due to EARS edits, the entire group of records of which the offending data is a part will be rejected. All invalid data must be revised at a record/element level, and the entire file must be re-submitted for reprocessing.

Common Errors

Each year PTAD receives test-submission data from appraisal districts. Over the years, PTAD has noticed that common errors occur with several appraisal districts. Your electronic data should be error-free. The following are some examples of errors that occur frequently.

- **Taxing Unit ID.** Each taxing unit ID (AJR04) must match the IDs listed in the *Appraisal District Directory* (comptroller.texas.gov/propertytax/references/directory/cad/). Anything other than these IDs in your appraisal district will be rejected. If a new taxing unit has been established, please call PTAD to receive an assigned ID number for the new taxing unit.

Example:

Taxing unit 0000000 would be rejected because it is not a valid taxing unit.

- **PTAD Category Codes.** Category codes accepted for each record are listed in field AJR19 description. Anything other than these codes will be rejected. Please review the *Texas Property Tax Assistance Property Classification Guide* (comptroller.texas.gov/tax-info/proptax/pdf/96-313.pdf) for further explanation of changes in property classification. In this publication, the use of Category X? is a reference to any of the different X categories, such as XA or XM.
- **Account Taxable Value (AJR27).** Please calculate this field as shown below.

Add AJR21, AJR25, AJR35 and AJR46 to arrive at market value. Then subtract the sum of AJR06, AJR07, AJR08, AJR09, AJR10, AJR11, AJR13, AJR14, AJR15, AJR16, AJR17, AJR24, AJR30, AJR31, AJR36, AJR40, AJR41, AJR44, AJR45, AJR64, AJR73, AJR76, AJR82, AJR83 and AJR84.

- **AUD Record versus AJR Record.**

1. Please check the AUD record totals by land type against the appraisal district's recaps for each taxing unit.
2. The sum of all AUD records by taxing unit should equal the sum of the Category D1 AJR records for each taxing unit.
 - the sum of AUD10 (acres) must equal the sum of AJR22 (acres), if AJR19=D1;
 - the sum of AUD14 (market value of qualified land) must equal the sum of AJR21, if AJR19=D1; and
 - the sum of AUD11 (productivity value) must equal the sum of AJR23, if AJR19=D1.

- **Duplicate Account Number and Category Codes.** You cannot have two AJR records with the same account number, short account number and category code under the same taxing unit number. Our system creates a unique record identifier for each AJR record by concatenating the CAD ID (AJR02), Taxing Unit ID (AJR04), County Fund Type Indicator (AJR05), Comptroller's Category Code (AJR19), Account

Number (AJR03) and Short Account Number (AJR74). Having a duplicate unique record identifier may stop processing and cause your entire file to be rejected.

Example:

If you have a property with 100 acres, farm and ranch improvements, and a residential improvement on the land and the owner designated 10 acres as his homestead, the residential improvement and 10 acres would be coded as Category E. You would code the 90 acres receiving productivity value as Category D1 and the farm and ranch improvements as Category D2 for this one account. In summary, you would have three AJR records for this one account under one taxing unit with three different category codes. **Exhibit 3** offers a graphic representation of this example.

Exhibit 3: Example of Category Coding

Account	Taxing Unit	Category	Acres
XX99008899088	000-000-00	E	10
XX99008899088	000-000-00	D1	90
XX99008899088	000-000-00	D2	0
Total:			100

- **No PTAD Media Information Form (MIF) Submitted with File.** The MIF gives a contact person's information in case there are problems with the submission and important information on the number of records in the file. Files will be rejected if an MIF is not included with the submission.
- **No or Incomplete Recaps Submitted with File.** The recaps must be submitted at the same time as the data file. The recaps must show a breakdown of the category values, a listing of all exemption totals, the agricultural valuation breakdown including the breakdown of the timber and wildlife values and the agricultural price per acre schedule.
- **Improper Land Use Classification.** The land type field (AUD08) must have a proper use code when income type (AUD07) indicates open-space use land. The prior land type field (AUD13 or AUD15) must have a proper use code when the land type field is either wildlife or timber in transition. In the past, these errors were overridden and the land use was coded as native pasture (NATP). **These errors will no longer be overridden and will cause the record to be rejected.**

- **Improper Submission Method.** PTAD no longer accepts forms by facsimile. Please send all forms by email to the group mailbox at ptad.ears@cpa.texas.gov.
- **Incomplete/improper Date Sold Fields.** PTAD will begin using data contained in the EARS files to test for indications of sales chasing as required by state law. To accomplish this, the date sold field must be completed and properly formatted. Some cases were also found where there was no most recent sales date, but there was a second most recent sales date. **This field will now be checked and must be completed properly.**
- **No Top Ten Taxpayer Records Submitted with File.** Each EARS file must include all of the top ten taxpayer records for each taxing unit required. EARS files will be rejected if they do not include Top Ten Taxpayer Records for the county and each school district and city.
- **Exemption Amount Submitted in Incorrect Field.** Records are received with an exemption amount in the historical or other fields when the exemption is either a totally exempt category or a different exemption that is named in the AJR records. To ensure proper credit in the PVS, exemptions must be reported in the correct fields.
- **Incorrect Marking of Veteran's Exemption.** Records that indicate an exemption for a 100 percent disabled veteran, a disabled veteran's surviving spouse or a surviving spouse of a service member killed in action had the amount included all three fields instead of just one field. The three fields are combined into a total on the self-report form but the amount must be reported only in the applicable field.
- **Not Indicating the Properties Subject to Chapter 313 Agreements.** Properties that are covered by a Chapter 313 Agreement must have field AJR56 set to "Y".

Summary of Changes for 2015 Electronic Submission

Fields were added to collect additional information to verify significant PVS taxable value deductions. These fields include an indicator for properties in a Tax Increment Reinvestment Zone (TIRZ) and on homesteads with tax ceiling.

In the first tax year homeowners qualify for the tax ceiling, the loss in levy is zero. Please have the indicator “N” for this year. The next year the indicator should be “Y” and the established tax ceiling should be included in AJR90.

When a taxpayer qualifies for a ceiling and moves to a new home, the ceiling is ported and recalculated. The new tax ceiling amount is not calculated until the new tax

rates are set. In these cases, please leave the indicator field set to “Y” and report either the amount of the current freeze before the move or the estimated ceiling after the move, if it has been calculated. PTAD recognizes that this amount will not exactly match the forms submitted, but believes that the error would be negligible in most cases.

PTAD asks for each property included in a TIRZ to be identified. This is just an indicator field to be marked “Y” if the property is in a TIRZ. This helps us verify the current market and taxable values for each zone reported.

PTAD is changing some fields from optional to mandatory. These fields are listed in **Exhibit 4**. Including them in the EARS file will reduce the number of data requests we make to the CADs each year. **Exhibit 5** indicates record layout changes for years 2010-2014.

Exhibit 4: Record Layout Changes: January 2015 Release

Field ID	Field Name	Description of Change
AJR88	TIRZ Indicator	Added a field to indicate if a property is included in a TIRZ.

Appendix 1: 2015 Account Parcel Address and Legal Description Record Layout (APL)

Field ID	Field Name	Type	Length (Total)	Decimal Places	Beginning Position	Ending Position	Description
APL01	Record Type	Alpha-numeric	3		1	3	For this record, use "APL." Generate one record for each account.
APL02	CAD ID Code	Numeric	3	0	4	6	The numeric identification code for each appraisal district as assigned by PTAD. This three-digit code is unique to the appraisal district, not the county. The codes are used in the Appraisal District Directory published by PTAD. They run from "001" to "254." You are only sending data for your appraisal district, so this number should always be the same. EXAMPLE: 001 - Anderson County Appraisal District 002 - Andrews County Appraisal District And so on.
APL03	Account Number	Alpha-numeric	25		7	31	The unique long code that your appraisal district uses to identify a specific property. Also referred to as the geographic account number. EXAMPLE: N6650-00-001-0012-00 Note: Please provide the short account number, sometimes referred to as the 'R' number or parcel number, in APL12.
APL04	Field Not Used	Alpha-numeric	50		32	81	FIELD NOT USED (LEAVE BLANK)
APL05	Legal Description	Alpha-numeric	200		82	281	The property description found on formal documents; describes property in a manner that enables a person to locate it with government officials and usually filed with the county clerk. EXAMPLE: Lot 3, Block 1, Section 1, Hughes Tract
APL06	Previous Year's CAD Market Value	Numeric	11		282	292	The market value, in whole dollars, for the property identified. Total market value before the 10 percent cap is applied. This is the total appraised value of the account, regardless of whether there are undivided interests in the property.
APL07	Field Not Used	Numeric	11		293	303	FIELD NOT USED (LEAVE BLANK)
APL08	Date of Sale	Numeric	8		304	311	The month, day and year of the most recent sale of the property. The date must have all eight digits, using leading zeroes for months earlier than October. EXAMPLE: 05241998 represents May 24, 1998
APL09	Is this a New Property Indicator?	Alphabetic	1		312	312	An indicator that the property identified is a new property. (Did not exist last year, or has been substantially improved since last year.)
APL10	Verified Sale by CAD Indicator	Alphabetic	1		313	313	An indicator that the property sold has been verified by the CAD. Enter "Y" or "N."
APL11	Second Most Recent Sale Date	Numeric	8		314	321	The month, day and year of the sale of the property if resold within one year. The date must have all eight digits, using leading zeroes for months earlier than October. EXAMPLE: 08241998 represents August 24, 1998.

Appendix 5: 2015 Account Jurisdiction Record Layout (AJR)

Field ID	Field Name	Type	Length (Total)	Decimal Places	Beginning Position	Ending Position	Relational Field	Description
AJR01	Record Type	Alphabetic	3	0	1	3		For this record, use "AJR." Generate one record per account, per category within each taxing unit.
AJR02	CAD ID Code	Numeric	3	0	4	6		The numeric identification code for each appraisal district as assigned by PTAD. This three-digit code is unique to the appraisal district, not the county. The codes are used in the <i>Appraisal District Directory</i> published by PTAD. They run from "001" to "254." You are only sending data for your appraisal district, so this number should always be the same. EXAMPLE: 001 – Anderson County Appraisal District 002 – Andrews County Appraisal District
AJR03	Account Number	Alpha-numeric	25	0	7	31	AJR74	The unique long code that your appraisal district uses to identify a specific property. Also referred to as the geographic account number. EXAMPLE: N6650-00-001-0012-00 Note: Please provide the short account number, sometimes referred to as the 'R' number or parcel number, in AJR74. Note: Please provide the parent account number used to indicate other records associated with this one in AJR77.
AJR04	Taxing Unit ID Code	Numeric	8	0	32	39		PTAD's assigned identification code for a taxing unit. The Comptroller's office publishes these numbers with the taxing unit's name in the <i>Appraisal District Directory</i> each year. The type of unit is denoted by the last 2 digits. CAD – Unique Identifier – Type Code 000-000-00 = County 000-000-02 = School District 000-000-03 = City Prepare an "AJR" record for the CAD that includes all accounts that the CAD appraises. If you collect taxes for a taxing unit but do not appraise for it, do not include those it in the EARS submission. If you collect taxes for a taxing unit and only appraise part of the taxing unit, only include the records you appraise in the EARS submission. If a taxing unit does not levy taxes, it is not necessary to fill out an Account Jurisdiction Record for that taxing unit. The taxing unit codes requested in this field are those used in the <i>Appraisal District Directory</i> , which is published by PTAD each year. If you encounter a taxing unit without a valid code, please contact PTAD and we will assign one.
AJR05	County Fund Type Indicator	Alphabetic	1	0	40	40		A one-character indicator for the county fund type. Some counties have only a general fund, while others have one or more special funds. These special funds include the farm-to-market/flood control fund and the special road and bridge fund. Jail or library funds should be included in the general fund. Use the following codes: County Purposes Only "A" indicates the county's general fund. "B" indicates the county's farm-to-market/flood control fund. "C" indicates the county's special road and bridge fund. NOTE: If not a county taxing unit, leave blank.

AJR21	Category Market Value Land (Before Any Cap) Amount	Numeric	11	0	184	194	AJR57 AJR24	<p>The market value, in whole dollars, of the land for this property in the identified taxing unit. Do not include any value in this field for property receiving a total exemption; include that value in AJR12. Do not use a capped value here.</p> <p>If a property has multiple ownership/undivided interest, provide an AJR record that includes the total value of the property or multiple AJR records with unique account numbers that include the value for each portion of the property. If multiple records are provided, indicate which records are related to this record by the use of a parent account number.</p> <p>EXAMPLE: 00000012000 represents a \$12,000 land value. (Applies to all taxing units)</p>
AJR22	Land Size (Total Acres for Category)	Numeric	11	3	195	205	AJR65	<p>A numeric field for the number of land units that measures the size of the land for appraisal purposes. If land unit is "4," fill with zeros. Refer to AJR65 for Land Units.</p> <p>EXAMPLES:</p> <p>00000042125 (if land unit was "1" then this represents 42 and 1/8 acres)</p> <p>00022000000 (if land unit was "2" then this represents 22,000 square feet)</p> <p>00000075000 (if land unit was "3" then this represents 75 front feet)</p> <p>(Applies to all taxing units)</p>
AJR23	Productivity Value Amount	Numeric	11	0	206	216	AJR24	<p>The value, in whole dollars, of the property based upon its productivity, if the property qualifies for special productivity appraisal. Productivity appraisal is for farm and ranch land and timberland.</p> <p>NOTE: If value is reported in this field, you must have an AUD record for this account.</p> <p>EXAMPLE: 00000002000 represents \$2,000 productivity value, even if market value is \$1,000,000. (Applies to all taxing units)</p>

Field ID	Field Name	Type	Length (Total)	Decimal Places	Beginning Position	Ending Position	Relational Field	Description
AJR24	Productivity Value Loss Amount	Numeric	11	0	217	227	AJR21 AJR23	The amount of value loss, in whole dollars, for the property based upon the difference between its market value and its productivity value, if the property qualifies for productivity appraisal. Productivity appraisal is for farm and ranch land, and timberland. EXAMPLE: 00000998000 represents a \$998,000 loss in value for land with a \$2,000 productivity value and a \$1,000,000 market value. (Applies to all taxing units)
AJR25	Category Market Value of Improvements (Before any Cap) Amount	Numeric	11	0	228	238		The market value, in whole dollars, of the improvements for this property in the identified taxing unit. For this submission, improvements are buildings or structures located on or attached to the land. Do not include any value in this field for property receiving a total exemption; include that value in AJR12, Total Exemption Amount. Do not use a capped value here. If a property has multiple ownership/undivided interest, provide an AJR record that includes the total value of the property or multiple AJR records with unique account numbers that include the value for each portion of the property. If multiple records are provided, indicate which records are related to this record by the use of a parent account number. EXAMPLE: 00000046000 represents a \$46,000 improvement value. (Applies to all taxing units)
AJR27	Account Taxable Value	Numeric	11	0	239	249		The taxable value, in whole dollars, for the account in the identified taxing unit. Taxable value is the value after exemptions are deducted. Do not include any value in this field for property receiving a total exemption; include that value in AJR12. Do not include value lost because of the school tax limitation on homesteads of the elderly. EXAMPLE: 00000098000 represents a \$98,000 taxable value. (Applies to all taxing units)
AJR28	Market Value of All Homesteads Before Any Exemption Amount	Numeric	11	0	250	260	AJR60	The market value, in whole dollars for this account if this account is a homestead and before any exemptions granted by the identified taxing unit. EXAMPLE: 00000022250 represents a \$22,250 value of homestead. (Applies to ISD only)
AJR30	Freeport Exemption Loss Amount	Numeric	11	0	261	271	AJR59	The value loss, in whole dollars, as a result of the Freeport exemption of personal property granted by the identified taxing unit. The Freeport property exemption is optional for counties, cities and school districts. The exemption is mandatory for special purpose districts (utility, water, fire and so on). EXAMPLE: 00000275000 represents \$275,000 in Freeport value loss. (Applies to all taxing units)
AJR31	Pollution Control Exemption Loss Amount	Numeric	11	0	272	282	AJR58	The value loss, in whole dollars, for any exemption of the property for its pollution control devices, granted by the taxing unit identified. EXAMPLE: 00000012750 Represents \$12,750. (Applies to all taxing units)

AJR35	Personal Property Value Amount	Numeric	11	0	283	293	AJR57	<p>The market value, in whole dollars, of the taxable personal property for the identified taxing unit. Personal property is all property that is not real property. Examples include business equipment, machinery, furniture and so on. Do not include any value in this field for property receiving a total exemption; include that value in AJR12, Total Exemption Amount. If a property has multiple ownership/undivided interest, provide an AJR record that includes the total value of the property or multiple AJR records with unique account numbers that include the value for each portion of the property. If multiple records are provided, indicate which records are related to this record by the use of a parent account number.</p> <p>EXAMPLE: 00001125000 represents a \$1,125,000 value of personal property.</p> <p>(Applies to all taxing units)</p>
AJR36	Prorations Loss to Property Changing Totally Exempt Status Amount	Numeric	11	0	294	304		<p>The value loss, in whole dollars, for property that has been prorated for totally exempt property. Property that has changed status from taxable to totally exempt or totally exempt to taxable. No loss should be shown in AJR12 for prorated property.</p> <p>EXAMPLE #1: The property has a total market value of \$25,000 and changed status from taxable to totally exempt. Property was taxable as of Jan. 1 and had a FM/FC exemption of \$3,000. Property became totally exempt as of Feb. 1. The prorations factor is calculated by dividing the number of days in the year that the property is exempt by 365.</p> <p>This is how you would report the values.</p> $AJR21 + AJR25 + AJR35 + AJR46 = 25,000 \text{ Market Value}$ $AJR07 = 3,000 \text{ FM/FC Exemption Loss Total} = 22,000$ $(25,000 \text{ minus } 3,000 = 22,000)$ $AJR36 = 20,130 (334/365 \text{ days} = 0.915. 22,000 \times 0.915 = 20,130).$ <p>This is the prorated loss for totally exempt property.</p> $AJR27 = \$1,870 \text{ Taxable Value.}$ <p>EXAMPLE #2: The property has a total market value of \$25,000 and changed status from totally exempt to taxable. Property was totally exempt as of Jan. 1 and had a FM/FC exemption of \$3,000. Property became taxable March 1. The prorations factor is calculated by dividing the number of days in the year that the property is exempt by 365.</p> <p>This is how you would report the values.</p> $AJR21 + AJR25 + AJR35 + AJR46 = 25,000 \text{ Market Value}$ $AJR07 = 3,000 \text{ FM/FC Exemption Loss Total} = 22,000$ $(25,000 \text{ minus } 3,000 = 22,000)$ $AJR36 = 3,564 (59/365 \text{ days} = 0.162. 22,000 \times 0.162 = 3,564).$ <p>This is the prorated loss for totally exempt property.</p> $AJR27 = \$18,436 \text{ Taxable value.}$

Field ID	Field Name	Type	Length (Total)	Decimal Places	Beginning Position	Ending Position	Relational Field	Description
AJR42	Local Option Homestead Exemption Percentage	Numeric	3	3	349	351	AJR06 AJR51	The percentage amount of value exempted in this taxing unit for any qualified homestead to the nearest whole percentage. EXAMPLE: 200 represents a 20 percent exemption. 005 represents a 0.50 percent exemption. (Applies to all taxing units)
AJR43	Field Not Used	Numeric	9		352	360		Field Not Used (leave blank).
AJR44	Field Not Used	Numeric	9		361	369		Field Not Used (leave blank).
AJR45	Low-income Housing Amount	Numeric	11	0	370	380	AJR71	The amount granted, in whole dollars, of the property value that qualifies for low-income housing partial exemption. Report totally exempt value in AJR12. EXAMPLE: 00000012750 Represents \$12,750.
AJR46	Mineral and Sub-surface Interests in Land Value	Numeric	11	0	381	391	AJR57	The market value, in whole dollars, of the mineral property for the identified taxing unit. Mineral properties include the value of all deposits still in the ground and not yet produced. All equipment used to produce and prepare the minerals for sale is also considered mineral property. Mineral property includes value for both energy minerals, including oil, gas, lignite and uranium, and non-fuel minerals such as sand, gravel, limestone, granite, talc and sulfur. Any non-mineral sub-surface interest in land, such as a caliche pit, is included in this field. If a property has multiple owners with undivided interests, provide an AJR record that includes the total value of the property or multiple AJR records with unique account numbers that include the value for each portion of the property. If multiple records are provided, indicate which records are related to this record by the use of a parent account number. EXAMPLE: 00002250000 represents \$2,250,000 of mineral value.
AJR47	Last Reappraisal Year	Numeric	4	0	392	395		A numeric field for the four-digit tax year in which the identified property was appraised in a formal appraisal of properties by the appraisal district (or by an appraisal firm on behalf of the appraisal district). Put the year in which the last reappraisal occurred, not the year in which the property will be reappraised again. EXAMPLE: 1998
AJR48	State-Mandated Homestead Exemption Indicator	Alphabetic	1	0	396	396	AJR07	An indicator that the property owner qualifies for any state-mandated homestead exemption on his or her principal residence. Homestead exemptions reduce the value of the property used for residential purposes. The property owner must apply with the appraisal district. Exemption amounts may vary from taxing unit to taxing unit. Enter "Y" or "N" Note: Even if the exemption amount is zero, enter "Y" if the property qualifies. (Applies to ISD – up to \$15,000; County – up to \$3,000 for FM/FC only)

AJR54	State-Mandated Disabled or Deceased Veteran's Exemption Indicator	Alphabetic	1	0	402	402	AJR15	An indicator that the property owner qualifies for a disabled or deceased veteran exemption. The owner may qualify if he or she is either (1) a disabled veteran or (2) the surviving spouse or child (under age 18 and unmarried) of a disabled veteran or of a veteran killed on active duty. The exemption applies to the owner's property that he or she designates – a principal residence, acreage, business or any other property. The owner designates only one property. The amount of the exemption depends on the disabled veteran's disability rating. If the individual died on active duty, the surviving spouse receives \$5,000 and unmarried surviving children under age 18 share \$5,000.00. Enter "Y" or "N" Note: Even if the exemption amount is zero, enter "Y" if the property qualifies. (Applies to all taxing units)
AJR55	Abatements Indicator	Alphabetic	1	0	403	403	AJR17 AJR44	An indicator that the property qualifies for an exemption of all or part of its value under a tax abatement agreement with the taxing unit. The property owner must apply. A taxing unit must decide the amount of the exemption. Enter "Y" or "N" Note: Even if the exemption amount is zero, enter "Y" if the property qualifies. (Applies to all taxing units)
AJR56	Chapter 313 Value Limitation Indicator	Alphabetic	1	0	404	404		An indicator that the property qualifies for an economic development value limitation under Tax Code Chapter 313. Enter "Y" or "N"
AJR57	Appraisal Roll Status Indicator	Alphabetic	1	0	405	405	AJR21 AJR25 AJR35 AJR46	A one-character indicator that identifies the appraisal roll's status of the property. If the appraisal review board (ARB) has approved the value reported for this property for the tax year submitted enter "A." If the value is awaiting final ARB approval, enter "B." If the property is reasonably likely to be taxable by the taxing unit but is not included on the appraisal roll that was certified, enter "C." Use the following codes: A – Certified B – Uncertified C – 26.01(d) (Applies to all taxing units)
AJR58	Pollution Control Exemption Indicator	Alphabetic	1	0	406	406	AJR31	An indicator that the property qualifies for an exemption of part of its value based on the installation or construction of a pollution control device. Enter "Y" or "N" (Applies to all taxing units)
AJR59	Freeport Exemption Indicator	Alphabetic	1	0	407	407	AJR30	An indicator that the property qualifies for an exemption of its value based on Tax Code Section 11.251. Enter "Y" or "N" (Applies to all taxing units)

AJR60	All Homesteads Before Any Exemptions Indicator	Alphabetic	1	0	408	408	AJR28	An indicator that the property qualifies for all homesteads before exemptions granted. Enter "Y" or "N" (Applies to all taxing units)
AJR61	10 Percent Cap on Residence Homesteads Indicator	Alphabetic	1	0	409	409	AJR39	An indicator that the appraised value of the property has been capped at the sum of: (A) 10 percent of the appraised value of the property for the last year in which the property was appraised for taxation times the number of years since the property was last appraised; (B) the appraised value of the property for the last year in which the property was appraised; and (C) the market value of all new improvements to the property. Enter "Y" or "N" (Applies to all taxing units)
AJR62	Water Conservation Initiatives Indicator	Alphabetic	1	0	410	410	AJR41	An indicator that the property qualifies for an exemption of all or part of its value based on the installation or construction of a water conservation device. Enter "Y" or "N" (Applies to all taxing units)
AJR63	Multiple Owner Indicator	Alphabetic	1	0	411	411	AJR08 AJR09 AJR10 AJR11	An indicator that the property has more than one owner for the same account. Each owner can claim his or her own exemption on the same property. For example, one owner can claim an age 65 or older exemption and the other owner can claim a disabled exemption on the same account only if this indicator is marked "Y." Each exemption would not be the full amount but the percentage that each owner owns. For example, if one owner claimed age 65 or older and the other claimed disabled, each would get 50 percent of the state-mandated exemption of \$10,000. So one owner would get a \$5,000 loss in AJR08 and the other would get a \$5,000 loss in AJR09 under one AJR record to add up to a state-mandated \$10,000 loss. Enter "Y" or "N" (Applies to all taxing units)
AJR64	Total Appraised Value Lost to State-Mandated 100 percent Disabled or Unemployable Veterans Homestead Exemption	Numeric	11	0	412	422	AJR66	The value loss, in whole dollars, for the state-mandated 100 percent disabled or unemployable veterans homestead exemption. This value should represent the remainder of the property's market value after reduction for the state-mandated \$15,000 homestead exemption and the \$10,000 homestead exemption for homeowners age 65 or older or their age 55 or older surviving spouse. EXAMPLE: 00000012750 Represents \$12,750. (Applies to all taxing units)

AJR65	Land Units	Numeric	1	0	423	423	AJR22	A numeric field for defining the measurement used for the land described in this record. Use one of the following codes: 1 = Acreage 2 = Square Foot 3 = Front Foot (Strip of land fronting on a street, easement or other means of access to the land) 4 = By any other measure not listed above, or a mix of any of the above, or for properties without any land entries. If this code is used, AJR22 must be filled with zeros. Note: If AJR19 = D1, the land units must be reported as "1" Acreage.
AJR66	State-Mandated 100 percent Disabled or Unemployable Veterans Homestead Exemption Indicator	Alphabetic	1	0	424	424	AJR64	An indicator that the property qualifies for the state-mandated 100 percent disabled or unemployable veterans or surviving spouse exemption. Enter "Y" or "N". (Applies to all taxing units)
AJR67	Solar/Wind Powered Exemption Indicator	Alphabetic	1	0	425	425	AJR14	An indicator that the property qualifies for an exemption of all or part of its value based on the installation or construction of a solar or wind-powered device. Enter "Y" or "N". (Applies to all taxing units)
AJR68	Prorations Loss to Property Changing Totally Exempt Status Indicator	Alphabetic	1	0	426	426	AJR 36	An indicator that the property qualifies for an exemption of its value based on Tax Code Section 26.10. Enter "Y" or "N". (Applies to all taxing units)
AJR69	Local Option Historical Exemption Indicator	Alphabetic	1	0	427	427	AJR13	An indicator that the property qualifies for an exemption for all or part of its value based on a historically significant site. Enter "Y" or "N". (Applies to all taxing units)
AJR70	Other Exemption/ Loss Indicator	Alphabetic	1	0	428	428	AJR16	An indicator that the property qualifies for an exemption that does not meet any other described exemptions. Enter "Y" or "N". (Applies to all taxing units)
AJR71	Low-income housing Indicator	Alphabetic	1	0	429	429	AJR12 AJR45	An indicator that the property qualifies as a low-income housing indicator. Enter "Y" or "N". (Applies to all taxing units)
AJR72	Personal Property in Transit Indicator	Alphabetic	1		430	430	AJR73	An indicator that the property qualifies for an exemption of part of its value based on Tax Code Section 11.253. Enter "Y" or "N". (Applies to all taxing units)

AUD04	Taxing Unit ID Code	Numeric	8	0	32	39		Prepare an "AUD" for each taxing unit that taxes the property. This field must always contain a valid taxing unit number. EXAMPLE: The property in the account has only 100 acres of dry cropland in the school district, but has 200 acres of dry cropland in the appraisal district. This would require two records, one for each school district that has dry cropland in it. In completing this field, use PTAD's assigned identification code for a taxing unit. The Comptroller's office publishes these numbers with the taxing unit's name in the <i>Appraisal District Directory</i> each year. CAD – Unique Identifier – Identification Code 000-000-00 = County 000-000-02 = School District 000-000-03 = City If a taxing unit does not levy taxes, it is not necessary to fill out an Ag Use Account Detail Record for that taxing unit.
